

PERFECT BLEACH

BROWS / FACE

PROFESSIONAL SET FOR HAIR BLEACHING PERFECT BLEACH

Set contains:

- PERFECT BLEACH bleaching powder, 20 g;
- BrowXenna® OXYGEN O2 Cream-activator 2.7%, 30 ml;
- measuring spoon.

Bleaching powder PERFECT BLEACH delicately acts on hairs: it does not damage them and does not dry out.

Use for bleaching:

- unwanted dark hair on the face and body;
- natural eyebrows, the color of which is very different from the color of the hair.
- tinted eyebrows if the shade is too dark.

Benefits:

- quickly, safely and delicately bleaches the hair on the face and body;
- allows you to achieve intense hair bleaching by 4 tones;
- eliminates the unwanted appearance of a yellow tint after bleaching;
- does not create a feeling of skin tightness due to the moisturizing ingredients in the composition;
- suitable for home use.

HOW TO USE:

Clean the bleaching area with water and let it dry.

Mix the Cream-activator 2.7% OXYGEN O2 BrowXenna® with the PERFECT BLEACH bleaching powder in ratio 1:1 in a non-metallic container. Stir until smooth and leave the mixture for 30 seconds for all components to fully interact.

Apply the paste so that it completely covers the hair from roots to ends. Soak the cream for not more than 10 minutes: 7-8 minutes — on light hairs, 9-10 minutes — on dark hairs.

Check the bleaching process every 2-3 minutes.

Thoroughly rinse the bleaching mixture off hair and skin with plenty of water.

Blot the hairs with a dry cloth.

Tint the eyebrows with dye if necessary. For example, use BrowXenna® Oxygen O2 dye.

Apply a moisturizing lotion or cream to your skin after bleaching your face and body hair.

ATTENTION!

Before applying the cream, test for the sensitivity of the skin to the components of the product. To do this, mix a small amount of the product and apply to a 1 cm² area of skin on the inner surface of the hand.

Wait 10 minutes and rinse off with cold water. If redness, irritation or inflammation appears within 24 hours, the product must not be used. If there are no signs, use PERFECT BLEACH as described in the instruction.

Special instructions for use:

- Do not apply the hair bleaching mixture on damaged, irritated or inflamed skin.
- Do not use on eye area or other sensitive areas. In case of contact with eyes, rinse immediately with cold water.
- Do not use the mixture after a hot bath or steaming: open pores can increase sensitivity.
- Do not return the used mixture to the jar or tube.
- Do not expose the area where PERFECT BLEACH has been applied to direct sunlight for 24 hours after application.

Keep containers closed at all times. Store in a cool place out of reach of children.

PERFECT BLEACH professional set for hair bleaching is designed for 40 uses.

Shelf life:

- PERFECT BLEACH bleaching powder: 5 years. After opening — 3 years.
- BrowXenna® OXYGEN O2 Cream-activator 2.7%: 3 years. After opening — 6 months.
